- |   |   |   |  |
|---|---|---|--|
| T | F | ? | All women who drink alcohol while pregnant put their unborn babies at risk for Fetal Alcohol Syndrome.                     |
| T | F | ? | Even if she quits drinking, a woman who has abused alcohol in the past will still have a baby with Fetal Alcohol Syndrome. |
| T | F | ? | A child will <u>not</u> outgrow Fetal Alcohol Syndrome, he or she will still have it as an adult.                          |
| T | F | ? | Drinking a small amount of alcohol while pregnant will not cause Fetal Alcohol Syndrome.                                   |
| T | F | ? | Light beers and coolers are less likely to cause Fetal Alcohol Syndrome than hard liquor.                                  |
| T | F | ? | If the mother quits drinking before and during pregnancy her baby will not get Fetal Alcohol Syndrome.                     |

|---|---|----|----|---|
| I believe we are all responsible for helping to prevent Fetal Alcohol Syndrome.                               | A | AL | DL | D |
| At a party, I would join my pregnant friend in drinking something without alcohol to help her avoid drinking. | A | AL | DL | D |
| I believe it is the mother's fault if her baby is born with Fetal Alcohol Syndrome.                           | A | AL | DL | D |
| It would bother me if my pregnant friend were drinking alcohol.   | A | AL | DL | D |

People worry too much about Fetal Alcohol Syndrome.

A AL DL D

I would feel ok if someone offered alcohol to a pregnant woman.

A AL DL D

I think it is important that people in my community are trying to prevent Fetal Alcohol Syndrome.

A AL DL D

I **first** learned about Fetal Alcohol Syndrome from (check all that apply):
