The Role of GABA Receptors in Mediating the Effects of Alcohol on the Central Nervous System. Martin Davies. *Journal of Psychiatry Neuroscience* (2003).

<http://www.cma.ca/multimedia/staticContent/HTML/N0/12/jpn/vol-28/issue-4/pdf/pg263.pdf>

Alcohol and the Developing Brain: Neuroanatomical Studies. Wei-Jung A. Chen, Susan E. Maier, Scott E. Parnell, and James R. West. *Alcohol Research & Health* (2003).

<http://www.niaaa.nih.gov/publications/arh27-2/174-180.pdf>

Children with Fetal Alcohol Syndrome are Impaired at Place Learning but not Cued-Navigation in a Virtual Morris Water Task. Derek A. Hamilton et al. *Behavioral Brain Research* (2003).

<http://www.neuroinvestigations.com/publications/sutherlandBBR2003.pdf>

Effects of Prenatal Alcohol Exposure on Child Development. J. Jacobson and S. Jacobson. *Alcohol Research & Health* (2002).

<http://www.niaaa.nih.gov/publications/arh26-4/282-286.pdf>

Regional Brain Shape Abnormalities Persist into Adolescence After Heavy Prenatal Alcohol Exposure. E. Sowell et al. *Cerebral Cortex* (August 2002).

<http://cercor.oupjournals.org/cgi/reprint/12/8/856>

The Effects of Prenatal Exposure to Alcohol, Tobacco, and other Risks on Children's Health, Behaviour and Academic Abilities. Mary Anne George. A Doctoral Thesis, Dept. of Individual Interdisciplinary Graduate Studies Program, University of British Columbia (2001).

<http://www.collectionscanada.ca/obj/s4/f2/dsk3/ftp04/NQ61093.pdf>

The Effects of Prenatal Alcohol Exposure on Executive Functioning. P. Kodituwakku, W. Kalberg, and P. May. *Alcohol Research & Health* (2001).

<http://www.niaaa.nih.gov/publications/arh25-3/192-198.pdf>

Teratogenic Effects of Alcohol on Brain and Behavior. S. Mattson, A. Schoenfeld, and E. Riley. *Alcohol Research & Health* (2001).

<http://www.niaaa.nih.gov/publications/arh25-3/185-191.pdf>

Mechanisms of Alcohol-Induced Damage to the Developing Nervous System. C. Goodlett and K. Horn. *Alcohol Research & Health* (2001).

<http://www.niaaa.nih.gov/publications/arh25-3/175-184.pdf>

Developmental Alcohol and Circadian Clock Function, D. Earnest, W. Chen, and J. West. *Alcohol Research & Health* (2001).

<http://www.niaaa.nih.gov/publications/arh25-2/136-140.pdf>

Diagnostic Subgroups and Neuropsychological Attention Deficits in Fetal Alcohol Syndrome. Gerald W. Block. A Doctoral Thesis, Department of Psychology, University of Saskatchewan (2000).

<http://www.collectionscanada.ca/obj/s4/f2/dsk3/ftp05/nq63846.pdf>

Fetal Alcohol Syndrome and Alcohol Related Neurodevelopmental Disorders. Committee on Substance Abuse and Committee on Children With Disabilities. *Pediatrics* (2000).
